INFORMATION SHEET FOR CONNECTED PRODUCTS

In accordance with the requirements of Art. 3 (2) of Regulation (EU) 2023/2854 (Data Act), the following product information related to product [B5L] is provided.

1. Type, format, and estimated volume of data

·**Type of data :** The data generated by the product consists of distance data from the product to the detected objects.

·**Data format :** The data generated by the product is output in a 4-byte data format.

·**Estimated volume :** The product generates data by receiving commands from the host device. Therefore, the estimated volume of data depends on the settings of the host device.

2. Data generation

Data is generated by receiving commands from the host device. Therefore, it is not generated continuously or in real-time.

3. Storage and retention

·**Data storage location :** Configuration parameters are stored internally in the product.
·**Retention duration :** There is no setting for the retention period.

4. Access, retrieve or erase data

By sending commands from the host device to the product, it is possible to access, retrieve, and delete data.

5. Updates on data usage or changes to the product

·**Change Notification** : No modifications to the specifications will be made after the product has been sold.
