

INFORMATION SHEET FOR CONNECTED PRODUCTS

In accordance with the requirements of Art. 3 (2) of Regulation (EU) 2023/2854 (Data Act), the following product information related to product [D6F] is provided.

1. Type, format, and estimated volume of data

- **Type of data** : The data generated by the product includes flow rate information and temperature information.
- **Data format** : The data generated by the product is output as 16-bit binary data.
- **Estimated volume** : The data generated by the product is approximately 32 bits every 90ms.

2. Data generation

Upon receiving measurement instructions from the master, the product generates data at the shortest interval of 90ms.

3. Storage and retention

- **Data storage location** : Data is not stored internally in the product.
- **Retention duration** : Since data is not stored internally in the product, there is no retention period.

4. Access, retrieve or erase data

Since data is not stored in the product itself, there are no methods for accessing, retrieving, or deleting the data.

5. Updates on data usage or changes to the product

- **Change Notification** : No modifications to the specifications will be made after the product has been sold.
